Doctor on duty

Global Medical Support is Scandinavia's leading supplier of specialised medical support, assistance and on-call services. We have more than 25 years of experience within medical assistance. Our main office is in Oslo.

Our experienced medical personnel have a wide competence. Our clients are within the following segments: offshore and shipping, hospitals, state and departments, organisations, companies and insurance.

GMS has around 50 permanent employees, mainly medical professionals, and we also organize a significant pool of health personnel within Scandinavia for assistance and preparedness. GMS is owned by SOS International, the largest and leading assistance company in Northern Europe.

Our health services for permanent offshore installations, rigs and ships are delivered in accordance with the governmental regulations and principles for health services in the petroleum industry, and in line with OLF's guidelines for medical preparedness. GMS offers Medical On Call services according to these guidelines.

Our medical services are available 24 hours a day for the industry, all year round. Our doctors have years of experience, also from SAR missions. This experience is crucial to reduce the consequences of serious illness or injury.

We offer:

- Doctor on duty, on call 24/7
- Certified and experienced doctors, providing the best service within healthcare for oil rigs and offshore vessels
- Effective tools, support and quality functions
- Preparedness and a network of specialists
- Tailor made services to fit our clients' needs
- GMS has personnel, systems and resources to provide medical assistance world wide.
