swire@swirees.com

Operating since 1979, Swire Energy Services has become established as the world's largest supplier of specialist offshore containers to the energy sector.

Today we provide a fully integrated service package that also encompasses aviation & refuelling, integrity, and chemicals services for customers across the oil & gas, offshore wind and marine sectors.

A new era of smart, connected services is required to meet the energy transition challenges of tomorrow. Today, we have grown from a world-leader in offshore containers, to become a fully integrated service provider for the global energy sector.

Offshore Container Services

Our rental service package is both comprehensive and unrivalled in the market today. Our services include:

- Full testing and inspection of units for the duration of the rental period
- 24/7 access to certificates
- Fully certified units to DNV 2.7-1, 2.7-2 and 2.7-3 when relevant
- Our multiple locations allow us to deliver from short distance
- Customer service support
- Fleet is designed to service the full spectrum of offshore oil & gas operations
- Most locations have in house repair & refurbishment facilities

Aviation Services

Swire is leading supplier of offshore aviation services, and can offer a complete managed aviation service package, including equipment supply, training, audits, and fleet management. Our services include:

- Servicing, certification & repair of offshore helicopter refuelling systems in accordance with CAA's CAP 437
- Helideck friction testing to CAS's CAP 437
- Custom-designed and manufacture of Jet A1 fuel dispensing & pumping units to fit rigs and vessels to meet CAP 437 under CAA approval
- Certification, maintenance, and repair of customer-owned fuel transit tanks
- Repair and refurbishment of couplings and nozzles
- Training in every aspect of onshore and offshore helicopter refuelling

Integrity Services

Through out strategically located facilities, Swire can provide our clients with Asset Integrity services across Testing & Inspection, Engineering, Lifting, and Maintenance - in support of oil & gas and offshore windfarm operations. Services include:

- Statutory Inspections Trained under GWO standards, our engineers are qualified to carry out statutory/LOLER inspections servicing Offshore Wind, Marine and Oil & Gas sectors
- Our LEEA qualified inspection engineers can undertake a wide range of LOLER inspections on fixed and loose lifting equipment
- Our integrated maintenance services - including refurbishment, painting, cleaning, and modifications - reduce delivery times and transport costs.
- Lifting Equipment and solutions are available from all our 58 global base locations,
- In-house surface preparation processes using our own blast and paint facilities.

Chemical Services

Swire Energy Services provides specialist chemical management solutions for the handling, storage, transportation and delivery of high-value chemicals and essential oilfield fluids.

We offer only the highest quality tanks and equipment to provide secure, robust and reliable methods of chemical handling. Services include:

- Storage
- Handling of Products for Dispatch
- Blending
- Safety Advisor
- Chemical Sales
- Tank Rental & Management
