

# **WHO WHAT WHERE** in the Norwegian Offshore Industry

Media Plan for 2022/23

# About the catalogue

The idea to collate contacts within the offshore industry in Norway originated at the Norsea base in Strømsteinen, Stavanger, in the mid-1960s. As operator of the Norsea base, the Norsea Exploration Services A/S needed a register for companies within the industry. By 1969, they had built up and updated address lists for companies both inside and outside the base. The eight to ten stencilled pages that had comprised the registry were then combined to form the 'Offshore mailing and telephone list'.

#### 1969 Offshore mailing and telephone list 2000 Oilinfo 2010 OFFSHORE NORWAY

We have set up a separate website for Offshore Norway. However, the catalogue will of course carry on as an English-language reference - a tool that will be even better internationally.

# The most up-to-date ind

#### FIND NEW CUSTOMERS

Find potential customers and present your company to buyers looking for suppliers.

#### BE VISIBLE

Increase your visibility with customers and in search engines. A listing with us ranks very high on Google.

#### ANALYSE YOUR COMPETITORS

Our product and service register will help you to identify your competitors.

#### INTERNATIONALIZATION

A large number of users are international. They are looking for partners, suppliers and customers in Norway.
